

## **ALABASTER PROJECT MINISTRIES NEWSLETTER**

**JUNE 2014**

**VOL.14 NO.2**

### **BILSINGA SERVICE**

The church in Blisinga is growing in spirit and in numbers. Several unbelievers have received Christ and have come out boldly as members of the Christian community. The fear of persecution usually deters many from openly declaring their faith in Christ Jesus. Priscilla, myself and the visiting team went there to join them for Sunday service. We have put fence around the 13 acre farm in Blisinga, this will enable us to not only raise crops but also goats and sheep.

### **RED CHURCH**

A team from the Red Church visited us during the month of May. The team comprised of Pastor Jayce, Mission Director, Dr. Dave, who is also a medical practitioner, an eye specialist, Erin, and an accountant, Skylar.

This hard-working and flexible team attended to eye and medical patients in 7 villages. They examined and dispensed medications to over 500 patients.

They also handed out UV protection sunglasses to over 300 patients. Several people prayed to receive Christ as their Lord and Savior and Dr. Jayce prayed with one chief to receive Christ as his Savior.

## **MEXICO**

Last April King was invited to talk to a team of doctors and dentists in Mexico who are interested in mission work. A team of 7 dentists are coming for mission service in Tamale in July. A team of 12 ophthalmologist will be coming to do eye surgeries in Tamale. The twelve doctors will rotate their visits with 2 ophthalmologists visiting every other month. This will enable us to treat and monitor more eye patients throughout the year.

## **DOMINICAN REPUBLIC**

God has opened the door for Alabaster Project in Dominican Republic to recruit Latin speaking missionaries to be trained and sent into the 10/40 window to work among unreached people groups. Antony of Frontline Missions is the point man in this effort.

## **JUDE**

Jude, a native of the Dagomba tribe-an unreached people- is one of the young men at Bethany Village training to be a missionary to the unreached people groups of West and North Africa. Jude has just received his passport in preparation for his missionary journeys. Please pray for his continued zeal and effectively in reaching the lost for Christ.

## **SHAWN AND SARAH**

More and more we are seeing young people lay down their lives to serve Christ. Shawn and Sarah, a young couple who came to Tamale to spend some time with us seeking direction for ministry from the Lord. They participated in all the Alabaster Project activities and were part of the medical outreach to many villages.

They have since returned to the states with the intentions of serving in the inner cities.

## **KING'S HAND**

During the month of May, King injured his right hand while working on one of the vehicles. It was truly a miracle of God that he has all his fingers. For two weeks it seemed his hand was doing well then last week his arm and his fingers became swollen and very painful as a result of infection. After praying and seeking the Lord, we thought it best for King to see a specialist to determine if surgery was needed. After examining King's hand, the specialist was also amazed that he had not lost any fingers but was happy to report that his fingers will heal naturally without additional treatments.

**WIDOWS AND ORPHANS**

At the end of the dry season just before the rains begin that is the time when there is usually a shortage of food in the northern region of Ghana. The little food that is available is very expensive and makes it very difficult for most of the people living in the village especially widows and orphans. This offers us the opportunity to show the love of Christ by taking the farm produce into the various villages to give to orphans, widows, the blind, and the handicapped. We are in the midst of distributing the farm produce. We have distributed food and money to the villages of Blisinga and Giza Gundaa and we have several more villages and institutions to deliver food to.

**FARM HOUSE**

The beginning of the rainy season in the northern region of Ghana is a time of great storms. One such storm destroyed many buildings in our region, including our farm house. The building has been restored just in time ready for the farming season which starts in June.

**KANSAS**

This is our ninth year in farming. King started with no knowledge at all of farming and gradually through the years, he has learned through groups and individuals how to farm. April, of this year he learned how to properly plow, harrow and plant with a cultivator from friends and supporters in Kansas.

**PRAYER REQUESTS**

Pray for additional workers in the areas of:

- |   |                |
|---|----------------|
| Administration                                  | Bible Teaching |
| Farm Managing                                   | Mechanics      |
| Eye care  | Dental care    |
| Writing grants for Alabaster Project Ministries |                |
