

THE LOVE OF GOD

Our love for God compels us to go into all nations and declare His love to all His creation. No distance is too far, no weather is too much, no language is too difficult and no command from God is denied. We love God and we desire to be wherever He is. We are here in the middle of the Sahara Desert and words cannot describe our joy and contentment in seeing the fulfillment of God's word spoken to us.

Last April we hosted Vision Sports. Vision Sports is a sports evangelistic ministry led by Scott Duke. This dynamic ministry will go anyway in the world to share the gospel of Jesus Christ with those who have not heard. We have hosted Vision Sports several times over the years but this outreach will definitely be one of the more memorable outreaches. We have a heart to reach the youth with the word of truth which brings life and hope to the hearer. Despite temperatures ranging from 95 to 140+ degrees, many young people came to take part in the sports activities. There was much joy among the groups. Vision Sports team and the local youth association grew closer to each other as they spent time in activities and fellowship. A mutual love and respect developed which will be spoken of for many years to come.

Please pray for the youth. They have so much potential and with the help of the Lord, many will grow to impact their communities positively.

DENTAL OUTREACH

When God calls there is only one answer: "Here I am". God called Dr. Leo, in 2020 to join Alabaster Project in taking the gospel to North Africa to share His love with the unreached people groups of the Sahara desert. Everyone who has been called knows how exciting it is to hear the Most High God call you by name. The call is to join him in this end-time harvest. The harvest indeed is plentiful but the laborers are few. Let us remember to pray to the Lord of the harvest. Amen. Please remember Dr. Leo and his family in prayers as they endeavor to

answer God's calling. He has since returned home in preparation for their permanent move into the mission field in North Africa.
